

Advanced Formula

Aluminum Brightener

Concentrated Formula Cleans and Restores Aluminum Surfaces

North America's #1 Name in High-Pressure Cleaning Equipment

Specialty Detergent

Special Features:

Advanced Formula Aluminum Brightener is an extra-strength, acid-based, aluminum cleaner and brightener designed for non-polished aluminum tanks and trailers, aluminum wheels and for preparing aluminum surfaces for painting. This easy-to-apply formula restores aluminum and makes it look like new in just one application. Advanced Formula Aluminum Brightener is formulated with Ammonium Bifluoride, not Hydrofluoric Acid, so it is safer to use and fumes less. Do NOT use on glass, polished aluminum or anodized aluminum. It's effective in removing grease, oils, baked-on carbon and diesel smoke. This formula is non-foaming.

Dilution Ratio

- Up to 20:1

Competitively priced

- Excellent value for cost
- Economical cost per gallon

High-quality detergents

- Designed for high temperature cleaning

Safety approvals & registration
